

ACURE Skin-Immune Technology

The skin is the largest organ of the human body and one of its major functions is to defend the body from many different environmental stresses such as UV, chemical irritants, heavy metals and other pollutants, known as xenobiotics. This continuous exposure will result in skin irritation followed by decreased barrier function and penetration of the substances in the body.

Your skin is an integral part of your immune system. SKIN-IMMUNE complex moisturizes skin against environmental stresses to help your own skin cell defensive systems*

- Specialized Plant Stem Cells
- Probiotics
- Organic Argan Oil
- Olive Leaf
- CoQ10

This unique 4 phase system helps your skin perform optimally:

- 1) First we boost the Phase I and II enzyme ability of the skin, a key part of the skin's immune response using clinically proven White Horehound Plant Stem Cells.
- 2) Then we reduce inflammation with Resveratrol Probiotics
- 3) Then we minimize bacteria, virus, and fungus with Olive Leaf
- 4) Then we protect and moisturize with Argan Oil and CoQ10

It is about supporting your skin's ability to perform optimally in the face of everyday stresses like UV radiation, pollution, toxins, harsh cleansers, and other irritants. This unique patent-pending ingredient blend is featured in our

DAY CREAM . NIGHT CREAM . RADICAL WRINKLE COMPLEX . RADICAL RESURFACING . OIL CONTROL FACIAL LOTION
